

UNITED STATES DISTRICT COURT  
DISTRICT OF NEW JERSEY

NOTICE

Beginning Monday , April 25, 2011, the United States Marshals Service will begin testing a new visitor screening system in the Clarkson S. Fisher Federal Building and United States Courthouse in Trenton. Anyone having business at the Trenton Courthouse Complex can expect delays entering the Building as the Marshals Service examines and processes each person's photo identification in order to build a visitor database. The preferred form of photo identification is a digital driver's license. It contains electronic information that can be used to populate the visitor database. Other forms of photo identification are acceptable but may cause further processing delays as Marshals' personnel may have to key in data. This system is part of our continuing efforts to enhance security to protect court personnel and the public. We apologize for any inconveniences as you enter the Courthouse in Trenton . Please arrive as early as possible to allow time for this additional screening. We will provide notice before this system is installed in Camden and Newark.

---

Garrett E. Brown, Chief Judge
